

Advanced CPT Clinic: Pain Management – Neurostimulators and Pumps

OBJECTIVE: This program will first provide a detailed review of the neurostimulator and spinal pump CPT coding guidelines to assist the participants in their understanding of the numerous techniques that are performed. “Real life” operative report case studies will also be presented for many of the neurostimulator and spinal pump techniques that are discussed.

DURATION: 4 hours.

CURRICULUM:

- A. Neurostimulators
- B. Intraspinal Catheters/Pumps/Reservoirs
- C. CASE STUDIES
